PROJECT INTRODUCTION

We're on a mission to empower professional women across Europe to overcome barriers and reach new heights in their careers. Inspired by the need to address the persistent gender gap in the workplace, our project is designed to equip women with the essential soft skills needed to break through the glass ceiling and thrive in leadership roles.

OUR APPROACH

Despite efforts to promote gender equality, women still face significant challenges in the workforce. From unequal employment opportunities to lower wages and underrepresentation in leadership positions, the statistics paint a clear picture of the obstacles women encounter. BTC takes a holistic approach to addressing these challenges. By focusing on the development of soft skills, such as emotional intelligence and effective communication, we aim to provide women with the tools they need to succeed in today's dynamic work environments.

*Soft Skills to deconstruct the
“glass ceiling”
and
gender stereotypes in the
workplace*

OUR OBJECTIVES

- Understand the origins of the glass ceiling and its implications.
- Deconstruct gender roles and corporate cultures that perpetuate inequality.
- Empower women with the skills and confidence to advance in their careers.
- Foster collaboration and support among all stakeholders in the fight for gender equality.
